

# How to add more time to online quizzes in Moodle

- Create the quiz
- Click on the settings wheel in the top right corner.
- Click on "user overrides"

The screenshot shows a web browser window with the URL `northernonline.onu.edu/mod/quiz/view.php?id=504520`. The page title is "NorthernOnline" and the course information is "2019-20 Spring Semester / Psych, Soc, & Criminal Justice / PSYC1001.03 [202030-32417] / Week 9: EXAM II (3/9-3/13)". The main heading is "ogy (section 03) [202030-32417]". Below this, it states "ity, students will take the exam at 10am on Friday 3/13. Students will have 60 minutes to take". The quiz details are: "Attempts allowed: 1", "The quiz will not be available until Friday, March 13, 2020, 10:00 AM", and "Time limit: 1 hour". At the bottom, it says "This quiz is not currently available" and has a "Back to the course" button. The URL at the bottom is `https://northernonline.onu.edu/mod/quiz/overrides.php?cmid=504520&mode=user`.

On the right side, there is a "My Courses" menu with a settings gear icon. The "Quiz administration" section is expanded, showing a list of options: "Edit settings", "Group overrides", "User overrides", "Edit quiz", "Preview", "Results", "Locally assigned roles", "Permissions", "Check permissions", "Filters", "Competency breakdown", "Logs", "Backup", "Restore", "Question bank", and "Course administration". A black arrow points from the "User overrides" option in the menu to the "ogy (section 03) [202030-32417]" heading.

- Click on “Add user override”
